The Michael Weems Collection is an assortment of original hand-etched and hand-carved crystal, glassware and dinnerware in exclusive designs, bold colors and original patterns. All of his designs exude a timeless energy and can be described as ethereal, peaceful and fun. “I believe everyone should be able to afford an original piece of art,” says Michael, “and one that you can actually use and enjoy on a daily basis makes it much more pleasurable to own.”

Michael's work has been commissioned by Dom Perignon, chosen as the gift to the stars at the Academy Awards, gift of choice for U.S. Government, and featured in many publications including InStyle, Architectural Digest and Bride's magazine. Michael was recently selected by Jenn-Air to design a limited edition mixer bowl and blender jar for their beautiful Attrezzi line. His collection of products represents the latest artistic expression in tabletop today.

The Michael Weems Collection is featured in premier retail stores such as Neiman Marcus, Tommy Bahama, and over 600 other fine retailers throughout the U.S.

The collection and more information are also available at www.michaelweems.com.
